THE NOVEMBER METEORIC EXHIBI-TION.—Just about this time there is due the full and brilliant November meleoric the full and brilliant November meteoric showers, which annually encounter the earth. They constitute a separate and distinct phenomenon, and are entirely distinct from the tuminous displays that give life and motion in the calun realms of night in the month of August. The November meteors are always looked for with the greatest interest. Up to ten years ago many astronomers found considerable difficulty, or failed altogether, in forming an estimate of the circumstances under which they became visible to us. It was observed that the lines of all the meteors, if traced back, converged in one quarter of the heavens, and this point accompanied the shooting stars in their apparent motion westward, instead of moving with ion westward, instead of moving with he earth toward the east. The source rom whence the meteors came was thus hown to be independent of the earth's otation and exterior to our atmosphere Some uncertainty naturally rests upo I. BLUM & BRO'S showers, but they have rarely failed to put in an appearance in some quarter of the earth at this time.

BRIDGES AS BOAT SMASHERS.—The case of the Baltimore & Ohio Railroad Company vs. the Wheeling, Parkersburg and Cincinnati Transportation Company was argued in the Supreme Court at Columbus last Saturday, and referred to Commissioners appointed by the court. The case directly involves the value of the steamer Rebecca, which was destroyed by collision with the Parkersburg bridge some seven or eight years ago, and it by collision with the Parkersburg bridge some seven or eight years ago, and it involves questions of rights and liabilities of bridge companies for losses of a similar character. The case was first tried at Cincinnati, where a verdict was given sgainst the Bridge Company for \$18,000. The Bridge Company carried the case to the Supreme Court, where it has been ever since. Capt. Booth, President of the Transportation Company, to whom we are indebted for these facts, stated to us that he did not expect that the case would be finally decided by the Commissioners for several years yet.

INDEPENDENT ORDER OF WORKINGMEN.—Deputy Spirene President Samuel Milligan, of Cincinnati, on Thursday
evening instituted Wheeling Lodge of the
Independent Order of Workingmen. The
following are the officers elected for the

This is the first Lodge of the Order, we believe, yet instituted in West Virginia. It starts off with a roll of about fifty members, who will meet every Thursday night in the hall on the corner of 12th and Market streets. The object of this Order, as we have hitherto explained at some length, is to furnish a cheap and reliable insurance on the life of each of its members to the amount of \$2,000.

CHILDREN'S HOME.—The attention of the public is respectfully called to the wants of the Children's Home for the winter season. Contributions of fruit and all kinds of vegetables, potatoes, turnips, cabbage, &c., will be gratefully received, Many farmers and produce dealers could make contributions of this kind with little inconvenience to themselves, which would add greatly to the comfort and health of these or phan children for the winter.
